Using the LEGO® SERIOUS PLAY®
materials and methodology

MEETING FACILITATION

using LEGO® SERIOUS PLAY® materials and methodology

LEGO® SERIOUS PLAY® gives your mind a hand in the meeting. Team members play with specific purpose and intentions. Not only does LEGO® SERIOUS PLAY® ensure effective communication and 100% involvement of team members but also encourage exploration of possible solutions within the system. Participants become part of the system and contribute their ideas to solve problems. Using LEGO® SERIOUS PLAY® materials and methodology, current situations are concretely constructed and visualized. Participants are safe to challenge assumptions and experiment their solutions into the models/ landscapes.

OUTCOME

- 100% participation and involvement of participants*
- Encouraged to challenge systems' assumptions*
- Explored and experienced different possibilities*
- Enhanced confidence to tackle current situations*
- Enhanced commitment to solve problems*

TARGET PARTICIPANTS

- Every team member*

100% Meetings with LEGO® SERIOUS PLAY®

BUSINESS BENEFITS

- ✓ *Enhanced meeting efficiency*
- ✓ *Explored new knowledge and solutions*
- ✓ *Empowered team confidence to adopt new methods*
- ✓ *Engaged every team member in the decision making process*
- ✓ *Enable to find solutions within the system*

PLAY

Team members play with purpose and think with their hands. They can apply their imagination and try-out every possible solution without stress. They present their ideas by playing with LEGO® bricks, modifying model structures and connecting their models with others.

PARTICIPATION

Every team member gets involved in LEGO® SERIOUS PLAY® which stimulates every team member to present their views vividly with LEGO® bricks and models. At the same time, it engages other members in sharing their viewpoints freely as the discussions focus on the models rather than the persons.

POPULARITY

LEGO® SERIOUS PLAY® is widely adopted as LEGO® is famous for its flexibility of various combinations. Participants, with or without experiences in playing LEGO® bricks, are able to build their own models. LEGO® bricks and models become a common language during the meeting. Each and every member is a story-teller. Members contribute their unique resources and construct the story together.

SENSE Training House

is a consulting and training company found in 2009. We strive for better business performance of your company by developing your employees' full potentials.
